---

## TECHNICAL SKILLS:

**Languages:** Javascript, C#, HTML5, CSS3, SQL

**Frameworks & Libraries:** React, Angular 6, .NET MVC, Entity Framework, Bootstrap, Git

---

## PROJECTS:

### Weather App

- This app assisted in my understanding of components and state management in React. It shows the current weather and the five day forecast. It was built using React, Javascript, HTML, CSS and flexbox.

### Mockup

- I took a mockup image of a website and recreated it using HTML, CSS and Bootstrap.

### Parks and Tech

- Used C# .Net on the backend and Angular 6 with Typescript on the front end, to create an app that tells you which park you have visited.

### Movie Review App

- This application was built using .NET MVC framework. This app utilizes individual user authentication. It allows user to create, delete or update a movie, as well as review which were stored in a SQL database. This app taught me concept of linking different tables together.
- 

## EXPERIENCE:

### Microsoft .NET Student

July 2018 - Oct 2018

Eleven Fifty Academy (Fishers, Indiana)

- Attended a fast and immersive Microsoft .NET program, where i learned a variety of different languages and frameworks/libraries.
